Review General System Description and Models Added to SRS (i.e. Version 1.2)

Here are basically the changes that I have made to date to give more clarity about what our system is doing as well as our understanding of the Positive Train Control Test Bed.

Priority: **Normal**Type: **Task**State: **Fixed**Assignee: **Corey**Subsystem: **No Subsystem**Fix versions: **Unscheduled**Affected versions: **Unknown**Fixed in build: **Next Build**Estimation: **?**

I went ahead and attached a new version with all of our requirements merged in as best as I could. This is the version that I will use for this week's release. Feel free to still leave comments here so that we can incorporate your feedback into next week's version.
