 [11/23/2015 7:15:29 PM] Stephen: Also, I went and tested the hardware,

but as I was analyzing the data I realized I had one of them

tomorrow night

overall sounds like great progress.
[11/23/2015 7:26:30 PM] Stephen: everything else looked relativly
reasonable so we should be able to filter the data a bit and have good
information
